Abebe Dinku is a Professor of Civil Engineering at AAU. He has published articles in local and international journals and has authored textbooks and served as a member of the editorial board of ZEDE. He was a senior Fulbright Scholar at the University of Maryland 2005/06. He is member of the Ethiopian Association of Civil Engineers; a member of the American Concrete Institute; and founding chairman of ACI-Ethiopia chapter.

Abebe Getahun is Professor and Chairman of the Department of Zoological Sciences at AAU. Currently, he is the Regional Co-Chairman (Northeast Africa) for the Wetlands International/IUCN SSC Freshwater Fish Specialist Group. He served as President of Pan African Fish and Fisheries Association; as Associate Dean of Continuing Education at AAU; and as Vice President of Alpha University College. He is founding member and Vice President of the Ethiopian Fisheries and Aquatic Sciences Association and member of the Biological Society of Ethiopia. He has published extensively.

Abraham Aseffa is the Scientific Director of the Armauer Hansen Research Institute. He is founding member and current Vice President of the Ethiopian Public Health Laboratory Professionals Association and Chairman of the National TB Research Advisory Committee. He is a recipient of Gold Medal from the Ethiopian Public Health Association. He has published extensively.
Adane Abraham is Associate Professor of Biotechnology at Addis Ababa Science and Technology University. He was senior researcher at the National Agricultural Biotechnology Laboratory of the Ethiopian Institute of Agricultural Research. Currently, he serves as the Secretary for the Institutional Biosafety Committee for work on GMOs. He served as leader of the National Plant Biotechnology and Crop Protection Case Team; as Head of Plant Pathology Department at the Ambo Plant Protection Research Center; and as leader of the National Plant Biotechnology and Crop Protection Case Team. He has published extensively.

Adugna Tolera is Professor of Animal Nutrition at Hawassa University. He served as Associate Vice President for Research and Extension; Coordinator of Continuing Education Program and as Head of the Animal Science Department at Hawassa University. He also served Texas A&M University as Livestock Production Specialist for the Ethiopia Sanitary & Phytosanitary Standards and Livestock & Meat Marketing Program. He provides consultancy services to various organizations and has published extensively.

Afework Bekele is Professor at the Departments of Biology and Zoological Sciences at AAU. He is also Adjunct Professor at the University of Oslo. At AAU, he served as Dean of the Faculty of Science; senate member; graduate program stream advisor and Chairman of the academic committee at the Department of Zoological Sciences. He was President of the Ethiopian Biological Society and Director of the Zoological Natural History Museum. He has published extensively.
Alemayehu Teferra is Professor of Civil Engineering at AAU. He has served as President of AAU and as member and Vice Chairperson of the Executive Board of UNESCO. He has published articles, two textbooks and a reference handbook. He is the recipient of silver medal from UNESCO and a Plaque from the American Association for the Advancement of Science. He was a senior Fulbright scholar at the UC, Berkeley.

Alem Bazezew is Associate Professor at the Faculty of Technology at AAU. He has served as Assistant Dean of the Extension Division and as Associate Dean of the Faculty at the Department of Mechanical Engineering at AAU. At Unity University, he served as Dean of the Faculty of Engineering and Computational Sciences and as Academic Vice President of Engineering, Physical Sciences and Health Science. He has published extensively.

Andreas Eshete studied philosophy at Williams College and Yale University in USA and has taught at a number of American universities such as Brown and UCLA-Berkeley. He is currently UNESCO Chair for Human Rights, Peace and Democracy and Advisor to the Prime Minister of the FDRE with ministerial portfolio. He served as President of AAU from 2003-2011. He supported the Ethiopian Academy of Sciences, by providing space and facility for the Secretariat at AAU. He also assisted the Academy to obtain Governmental recognition through an Act-of-Parliament. Professor Andreas has widely published essays on moral and political philosophy.
Angelo Del Boca is Professor of History, specializing on Fascism and African colonial history. He is the author of several books including, ‘La guerra d’Abissinia’ that laid bare the atrocities of Fascist Italy in Ethiopia. He holds honorary degrees from the University of Turin; the University of Lucerne in Switzerland; and from Addis Ababa University. He has published extensively on African colonial history.

Asfawossen Asrat is Professor of Geology at AAU. He served as Associate Vice President for Academic Affairs, as Academic Programs Officer and as Research Officer at AAU; as Vice President of the Geological Society of Africa; and President of the East African Quaternary Research Association. He is Associate Editor of the Quaternary International, recipient of several scientific grants and has published extensively on Ethiopian geology, geomorphology, geological heritage, palaeoclimatology, and palaeoenvironment.

Asrat Hailu is Professor of Immunoparasitology at the Department of Microbiology, Immunology and Parasitology at AAU. At AAU, he also served as Director of Research; and as Acting Associate Vice President for Research & Graduate Programs. He served as Head of the Leishmaniasis Research at Aklilu Lemma Institute of Pathobiology. He established the Leishmaniasis Research & Diagnostic Laboratory and is founding member of the Leishmaniasis East Africa Platform. He has published extensively.
Assefa Admassie is Executive Director of the Ethiopian Economic Policy Research Institute of Ethiopian Economic Association and Adjunct Associate Professor at AAU. He served as Head of the Department of Economics and Coordinator of the MA program in Regional and Local Development Studies at AAU, and as consultant for the Economic Commission for Africa and FAO. He is the recipient of first prize for outstanding research by the Global Development Network. He has published extensively.

Assefa Bequele is founder of The African Child Policy Forum (ACPF). His distinguished career covers international advocacy on child wellbeing, institution building, university teaching and many years of service at a senior level in the ILO. He has served as expert, adviser or board member in many organisations, including at the AU, Youth Advisory Council of MasterCard Foundation and Plan International. He is the author of numerous works on child wellbeing and development issues. He continues his advocacy and programmatic work through his engagement in international and regional bodies, including as Board member of TrustAfrica and as Distinguished Fellow at ACPF.

Asrat Worku is Operations Manager for Geotechnics at Gibb International. He is a senior Geotechnical Engineer and leads geotechnical work in a number of major regional projects in East Africa. He is member of the American Society of Civil Engineers (ASCE) and fellow of the Ethiopian Association of Civil Engineers. He has published extensively.
**Assefa Mehretu** is Professor of Geography at Michigan State University. He is the Director of the Rome Social Science Program in Italy. He served as Associate Director of the African Studies Center at Michigan State University; as Director of the Institute of Development Research and as Chairperson of the Department of Geography at AAU. He has published extensively on African development.

**Atalay Alem** is Professor of Psychiatry at AAU. He has served as Medical Director and Psychiatrist at Amanuel Hospital, as Executive Director of the College of Health Sciences and as Head of Staff Development Unit and Reform Officer for Health Sciences at AAU. He is the recipient of certificate from the Theodore and Vada Stanley Foundation, USA, and the Robert Giel Award for teaching, service development and research in mental health in Ethiopia. He has published extensively.

**Atalay Ayele** is Associate Professor and Director of Geophysics at the Institute of Geophysics Space Science and Astronomy at AAU. He serves as Acting President of the African Seismological Commission and as Secretary of the Eastern and Southern Africa Regional Seismological Working Group. With his colleagues, he contributed significantly in promoting the Geophysical Observatory to the Institute of Geophysics Space Science and Astronomy in 2008. He has published extensively.
**Azage Tegegne** is a Principal Scientist at the International Livestock Research Institute. He has authored/co-authored many articles in peer-reviewed journals, conference proceedings, and book chapters. He has received Gold Medals, Certificates of Merit, diplomas and awards from various national and international organizations. He was member of the Editorial Advisory Board for the International Journal of Animal Reproduction Science and Editor-in-Chief for the Ethiopian Journal of Animal Production.

**Ayenew Ejigou** served AAU as Head of the Department of Statistics, as Professor of Statistics, as Chairman of the Advisory Board of the Institute of Development Research and as Member of the Senate. He served as Dean of the Faculty of Social Sciences at the University of Lesotho. He was founding member and first President of the Ethiopian Statistical Association as well. He has published widely.

**Bahru Zewde** is Emeritus Professor of History at Addis Ababa University, Fellow of the African Academy of Sciences and Vice President of the Association of African Historians. He has served as Director of the Institute of Ethiopian Studies, Executive Director of the Forum for Social Studies; and Board member of TrustAfrica. He has published extensively and edited books and journals. Among his major publications are: A History of Modern Ethiopia 1855-1991; Pioneers of Change in Ethiopia: The Reformist Intellectuals of the Early Twentieth Century; Society, State and History: Selected Essays; and Quest for a Socialist Utopia: The Ethiopian Student Movement c. 1960-1974.
Baye Yimam is Professor of Linguistics at AAU. He served as Director of the College of Social Sciences and Humanities. He has published articles in international and national academic journals as well as books. He had fellowships in a number of universities and has won international and national research grants. He is member of the World Congress of Linguists and the World Congress of African Linguistics, where he served as member of the Executive Committee.

Belay Kassa is Professor of Agricultural Economics and past President of Haramaya University. He is currently Interim Deputy Rector of the Pan African University. He authored several journal articles in peer-reviewed journals, study reports, conference papers and training materials. He is the recipient of International Visitor Program of the United States Department of State (2004); and the Chancellor’s Gold Medal for best graduate in the Faculty of Agriculture, AAU (1983).

Belay Woldeyes is Professor of Chemical Engineering at AAU. He is the co-founder and the first Ethiopian head of the Department of Chemical Engineering, AAU. He has published in international and national journals and has presented papers at international conferences. He has authored teaching materials on chemical kinetics and chemical reactor for chemical engineering and related disciplines.
Berhane Asfaw is a Paleoanthropologist and is Managing Director of the Rift Valley Research Services. He is Fellow of the National Academy of Science of the United States (2008) and Fellow of the Academy of Sciences for the Developing World (TWAS) 2010. He initiated and directed the innovative national Paleoanthropological Inventory of Ethiopia and has discovered dozens of world-class archaeological and paleontological sites. His research and publications demonstrated that anatomically modern humans were present in Africa about 160,000 years ago.

Berga Lamaga established the International Potato Center -Ethiopia Office. As Director of Research and Extension, ATA, he played a key role in the establishment of the Ethiopian Agricultural Research Council and the Open Forum on Agricultural Biotechnology-Ethiopia Chapter. He served as Regional Potato Project Leader and Leader of the CIP-Uganda Office; as coordinator of Regional Potato and Sweet Potato Improvement Network in ten Eastern & Central African countries; and as Leader of the Ethiopian Potato Improvement Project for the Ethiopian Institute of Agricultural Research. He was recognized by the Ethiopian Institute of Agricultural Research in 2016, the 7th African Potato Association and the Crop Science Department of Makerere University for his significant contributions. He has numerous publications.

Berhanu Abegaz is Professor of Organic Chemistry and current Executive Director of the African Academy of Sciences. He is founding member of the Natural Products Research Network for Eastern and Central Africa. He served as the coordinator for the network for Analytical and Biological Services for Africa. He is the recipient of the Pierre Crabbe Award and the CNR Rao Prize from TWAS. He is Fellow of the World Academy of Sciences. He has published extensively.
Berhanu Gebremedhin is Senior Scientist-Agricultural Economist at the International Livestock Research Institute and Adjunct Professor of Economics at AAU. He served as President of the Ethiopian Society of Agricultural Economics. He is the recipient of the Rockefeller PhD dissertation award; ILRI Neville Clark Award for Outstanding Partnership; and ILRI long service award. He has published extensively.

Brhane Gebrekidan is an independent consultant in agriculture. He has authored several technical papers and book chapters. He developed several new varieties of sorghum and maize for different ecological zones of Ethiopia and was named outstanding Ethiopian Plant Scientist by the National Crop Improvement Conference. He was Adjunct Professor and Program Director of the Integrated Pest Management (IPM) Collaborative Research Support Program (CRSP) covering Africa, Asia, the Americas, and Eastern Europe at Virginia Tech.

Chemeda Fininsa is Professor and current President of Haramaya University. He served as Head of the Department of Plant Sciences, Dean of School of Graduate Studies, and Chairman of the Academic Affairs Committee of the Faculty of Agriculture at Haramaya University. He also served as Coordinator, Lowland Pulses Research and coordinated and led the multiplication of improved common bean varieties for distribution to farmers in eastern Ethiopia. He is Founder and Associate Editor-in-Chief of the East African Journal of Science. He has published extensively.
Daniel Kitaw is Professor of Industrial Engineering at AAU. He has authored and co-authored many articles in national and international journals and has published teaching materials and textbooks. He was a key player in the launching of the MSc and PhD Industrial Engineering programs at AAU. He is a strong advocate of University-Industry linkage programs, and the Founding Member, Chairperson of the Technical Committee and Secretary of Board of Ethiopian Quality Award. He has received many honours, appreciation letters and certificates.

Damen Haile Mariam is Professor of Public Health and Health Economics at the School of Public Health at AAU. He is a Consultant Community Health Specialist with the Federal Ministry of Health. He has served as Chair of the Department of Community Health; as President of the Ethiopian Public Health Association; and as Associate Dean for Research and Graduate Studies at the College of Health Sciences at AAU. He has published extensively.

Darge Wole is Professor of Educational Psychology at AAU. He served as Director of AAU Press and as Director of the Institute of Educational Research at AAU; as Deputy Permanent Delegate of Ethiopia to UNESCO; and as President of the Ethiopian Psychologists Association; He is the recipient of letters of appreciation from the Minister of Culture and Tourism (Ethiopia); President of AAU University; President of University of Mauritius and certificate of recognition as Ambassador of Peace, Universal Peace Federation in Seoul. He has published extensively.
**David W. Phillipson** is Emeritus Fellow at the University of Cambridge. He is Honorary Professor at University College London. He served as President of the British Institute in Eastern Africa; as Director of the Museum of Archaeology and Anthropology as well as Professor of African Archaeology at the University of Cambridge. He is the recipient of Frend Medal from the Society of Antiquaries of London. He has published extensively.

**Dawit Alemu** is an Agricultural Economist and is currently serving as Manager of the Bilateral Ethiopia-Netherlands Effort for Food, Income and Trade (BENEFIT) Program. Previously, he has been serving as Senior Researcher and Director of the Agricultural Economics, Extension and Gender Research Program of EIAR, as Project Manager of FRG and EthioRice Projects supported by JICA, and as senior research officer at the Ethiopia Strategy Support Program of IFPRI.

**Demissie Habte** is Professor of Paediatrics and former Dean of the Faculty of Medicine, AAU. He has extensive publications on child health, medical education, and public health. He is the recipient of the Rosen von Rosenstein Medal of the Swedish Paediatric Society, Fellow of the African Academy of Sciences, and Honorary Fellow of the London School of Hygiene and Tropical Medicine. He was Health Specialist for the African Region at the World Bank in Washington and Founding International Director of the James P. Grant School of Public Health, BRAC University, Bangladesh.
Dessalegn Rahmato was for many years a Senior Research Fellow at AAU and left in 1997 to establish, along with some like-minded colleagues, Forum for Social Studies - an independent policy research institution for which he was the first Executive Director. He has published numerous books, monographs and papers. He is the winner of the 1999 Prince Claus Award, which is given by the Prince Claus Fund of the Netherlands, to individuals from the Third World, considered to have made significant contributions to their societies.

Eleni Gabre-Madhin is the Founder and was the first CEO of the Ethiopia Commodity Exchange. She has authored numerous works and scholarly peer-reviewed articles and was awarded Outstanding Dissertation by the American Agricultural Economics Association in 1999. She is the President of the African Commodity Exchanges Forum and represented the African business community at the 2009 G20 Business Summit in London and sits on several advisory groups.

Endashaw Bekele is Professor of Genetics. He served as Associate Vice President for Research and Graduate Studies at AAU and as Dean of the Faculty of Science at Asmara University. He was founding member and first Vice-President of the Crop Science Association of Ethiopia. He is member of the New York Academy of Science and the Third World Academy of Science. He has published extensively.
Ermias Dagne is Emeritus Professor of Chemistry at AAU. He is founding Member of the Natural Products Research Network for Eastern and Central Africa and is Director of the African Laboratory for Natural Products, a network of laboratories in five neighbouring countries. He has published extensively and has developed the “Natural Database for Africa” CDROM. He is Fellow of the Academy of Sciences for the Developing World and is also recipient of IFS/DANIDA and IOCD Pierre Crabbé awards.

Erwin Beck is Professor Emeritus at the University of Bayreuth. He has served as Academic Dean of the Faculty, Head of the Department of Plant Physiology, and Vice-President for Academic Affairs and Research at the University of Bayreuth. He served as President of the German Biologists Association and as President of the German Botanical Society. He is the recipient of the Order of Merit of the German Federal Republic. He has published extensively.

Eshetu Wencheko is Professor of Statistics. He served as President and as Academic Programmes Officer at Addis Ababa University, and as the founding President of Alpha University College. He is the recipient of the Education Ambassador Award of the American Statistical Association and Gold Medal winner of the National Higher Education Teaching and Research Award of Ethiopia. He is member of the Ethiopian Statistical Association; Mathematical Society of Ethiopia; and the International Biometric Society. He served as the Editor-in-chief of SINET and the Editor of the Journal of Ethiopian Statistical Association.
Fasil Gebre Kiros served AAU as Vice-President for Administration and Development and as Acting Dean of the College of Business Administration. He served as the First Executive Secretary and as Vice President of the Organization for Social Science Research in Eastern and Southern Africa in Addis Ababa; as Senior Principal Research Scientist and as Head of the Social Sciences Department at the International Centre of Insect Physiology and Ecology (ICIPE), Nairobi. He has published extensively.

Fassil Giorghis is Associate Professor of Architecture and Chair Holder of Conservation of Urban and Architectural Heritage at AAU. Among his notable works are the Red Terror Memorial Museum and the restoration of the residence of Blaten Geta Heruy Woldeselassie for the Ethiopian Academy of Sciences in Addis Ababa. He has participated in numerous international conferences and has contributed articles on sustainable architecture and preservation of cultural heritage.

Fekadu Fullas works in clinical pharmacy services at Unity Point Health-St. Luke’s, USA. He served as a post-doctoral chemist under the late medicinal chemist Dr. Monroe Wall at the Research Triangle Institute, his research focusing on obtaining anti-cancer natural compound leads from plants. He has authored/co-authored four books on Ethiopian Traditional Medicine. He has published extensively.
Gebru Tareke is Professor Emeritus at Hobart and William Smith Colleges, New York. He served as Head of the Department of History and Director of Third World Studies Program at Hobart and William Smith Colleges; and as Director of the Institute of Ethiopian Studies at AAU. He has published extensively and is author of important books on Ethiopian History such as: The Ethiopian Revolution: War in the Horn of Africa and Ethiopia: Power and Protest, Peasant Revolts in the Twentieth Century.

Getachew Abebe is Professor of Veterinary Medicine. He served as FAO Avian Influenza National Technical Officer and contributed to the development of the National Strategic Preparedness and Response Plan for the Avian Influenza; as President of the Ethiopian Veterinary Association; and as Member of Technical Advisory Committee, Southern Rift Valley Tsetse Eradication Project. He is recipient of Gold Medal Award from the Faculty of Veterinary Medicine, AAU. He has published extensively.

Giday WoldeGabriel is a Geologist at Los Alamos National Laboratory in New Mexico. He serves as co-PI and lead Geologist for the Middle Awash project supporting the human origins field research as well. He served on projects such as site characterization for high-level nuclear waste repository and environmental studies of underground nuclear testing areas. He was selected as Los Alamos National Laboratory Fellow and was recognized by the Society of Ethiopians in Diaspora in Washington D.C. He has published extensively.
Girma Zerayohannes is Associate Professor and Chair of Concrete Structures and Materials at the Addis Ababa Institute of Technology, at AAU. He is also a consultant. He served German Embassy School Addis Ababa and the UN ECA in the area of seismic risk assessment, and was a consultant in the investigation of the cause of failure of Omo Steel Bridge. He has published locally and internationally.

Gizahegne Yirgu is Professor and former Dean of the Faculty of Science and Dean of the School of Earth and Planetary Sciences at AAU. He received awards and honors as visiting Research Fellow of the Royal Society of London, UK; as Associate Researcher at Centre National de la Recherche Scientifique, France; and Visiting Scholar, Pennsylvania State University, USA. He has published extensively in national and international journals.

Grover M. Hudson is Professor Emeritus of Linguistics, Germanic, Slavic, Asian and African Languages at the Department of Linguistics of Michigan State University. He taught Amharic language from 1979 to 2008 at Michigan State University. He served as a lecturer at the English Department of AAU and directed Amharic language courses in three US Peace Corps training programs for Ethiopia. He has published extensively.
Habtamu Wondimu is Professor of Social Psychology and former Director of College of Education and Behavioural Studies at AAU. His major publications include: ‘Handbook of Peace and Human Rights Education in Ethiopia’ and ‘Family Violence in Addis Ababa: Challenges of reconciling culture and human rights in Ethiopia,’ among others. He has won the OSSREA’s Sabbatical Research Grant (2005), Fulbright’s New Century Scholar’s Grant (2007/08), and the “Who Is Who among Students in American Universities and Colleges” Award (1972-1973). He has published extensively.

Helmut Kloos is Professor and Research Associate at the University of California and at the Federal University of Minas Gerais in Brazil. He served as a consultant to the Socioeconomic and Institutional Strengthening section of the Special Programme for Research and Training in Tropical Diseases of the UNDP/World Bank/WHO and as trainer of Ethiopian social scientists in studying human water contact behavior in water-borne diseases. He is the recipient of the 2008 EPHA Merit Award from the Ethiopian Public Health Association. He has published extensively.

Ib Friis is Professor of Botany at the Natural History Museum of Denmark. He is the recipient of the Cross of the Danish Royal Order of the Dannebrog. He is member of the Royal Danish Academy of Sciences and Letters; of the Royal Physiographic Society in Lund - Academy for Science, medicine and technology; and honorary research fellow at the Royal Botanic Gardens. He has published extensively on the flora of Ethiopia and the region.
James McCann is Professor at Boston University who studies the history of food, ecology, and agriculture of Africa. He has served as Director of the African Studies Center at Boston University and as Director, ad interim, of the Frederick S. Pardee Center for the Study of the Longer-Range Future. His book Maize and Grace won the 2006 George Perkins Marsh Prize. He held residential fellowship at the DuBois Institute, Harvard University; the Program of Agrarian Studies at Yale University; and at the National Humanities Center. He has published extensively.

Jon Abbink is an Anthropologist-Historian. He is Senior Researcher at the African Studies Centre, Leiden, the Netherlands, and Research Professor of African Studies at VU University, Amsterdam. He served as member of the Executive Board at the African Studies Centre in Leiden. He was a research fellow at the Royal Netherlands Academy of Sciences. He has published extensively; has co-written and has served as editor of many books on Ethiopian and African Studies.
Kay Kaufman Shelemay is the G. Gordon Watts Professor of Music and of African and African American Studies at Harvard University. Her book, *Music Ritual, and Falasha History*, won both the Prize of the International Musicological Society and the ASCAP-Deems Taylor Award. Her article, *The Power of Silent Voices, Women in the Syrian Jewish Musical Tradition*, won the Society for Ethnomusicology’s Jaap Kunst Prize as well. She was named Chair of Modern Culture at the John W. Kluge Center of the USA Library of Congress. She has published extensively.

Laike Mariam Asfaw is Associate Professor at AAU. He is Associate of the Royal Astronomical Society UK, 2007; awarded for long outstanding service as Director of Geophysical Observatory (2007); and the recipient of the American Geophysical Union International Award (2008). He is member of the American Geophysical Union and Ethiopian Geosciences and Mineral Engineering Association. He has extensive publications in peer-reviewed journals and conference proceedings.

Legesse Negash is Professor of Plant Physiology at the AAU. He is founder of the Center for Native Trees Propagation and Biodiversity Development in Ethiopia. He has published extensively in diverse scientific journals, and is also author of several books, booklets and book chapters. He is member of various professional societies, and is the winner of numerous awards, including from the International Foundation for Science.
Masresha Fetene is Professor of Plant Ecophysiology at AAU and Executive Director of the Ethiopian Academy of Sciences. He served as Vice President for Research and Technology Transfer of AAU and as Director of AAU Press. He is the recipient of several research awards and fellowships including, UNESCO-ICRO research award and the Alexander von Humboldt Fellowship. He is Fellow of the African Academy of Sciences. He has published extensively.

Melaku Worde is founder and first Director of the Ethiopian Plant Genetics Resources Center (currently Institute of Biodiversity Conservation). He is the recipient of the Right Livelihood – The Alternation Nobel Prize (1989) and the Year 2008 National Green Foundation Awards for outstanding national and international contributions to national and global efforts in the conservation of genetic resources. He has published scientific and resource materials.

Martyn Poliakoff is Professor of Chemistry at Nottingham University and is the Foreign Secretary and Vice-President of the Royal Society. He is the recipient of Knighthood and Commander of the Order of the British Empire. He is Fellow of the Royal Society; of the IChemE; is Foreign Member of the Russian Academy of Sciences; and Member of the Chemical Society of Ethiopia. He was awarded the Nyholm Prize by the Royal Society of Chemistry for taking chemistry to the widest possible audience via Youtube, which has been viewed by more than 20 million worldwide.
Mengesha Admassu is past President of Gondar University and Professor of Public Health at the College of Medicine and Health Science at the University. He is recipient of Certificate of Appreciation by Light for the World. He is founding member of the Dabat Rural Health Project. He has published extensively.

Mengistu Hulluka served as Ambassador Extraordinary and Plenipotentiary to Hellenic Republic and Italy. He served as the Minister of Ministry of Agriculture and as President of Haramaya University. He is recipient of outstanding scholar Gold Medal from Haramaya University during the celebration of its 50th Anniversary. He has published extensively.

Mesfin Araya is Associate Professor of Psychiatry at the School of Medicine at AAU. He served as head of the Department of Psychiatry at AAU and as Dean and later Provost of St Paul’s Millennium Medical School/College. He is the recipient of Gold Medals from the Ethiopian Medical Association and the Federal Ministry of Health. He has been instrumental in the establishment of the National HIV/AIDS Council and HIV/AIDS Prevention and Control Secretariat. He has published extensively.
Mulatu Astatke is a composer who created what is known as Ethiojazz. He is the founder of the Ethiopian Quintet. He is the recipient of the Berkeley Achievement Award and the Ethiopian Red Sea medal for Fine Arts. He is a top-selling artist featured on the critically acclaimed Ethiopiques series and several of his compositions were featured in the movie “Broken Flowers.” He has performed with renowned musicians such as Duke Ellington, Edmondo Rose, Frank Holder, and many others.

Mulugeta Bekele is Associate Professor of Physics at AAU. He served as head of the Physics Department at AAU. He is President and founding Member of the Ethiopian Physical Society. He was Senior Associate Member of the Abdus Salam International Centre for Theoretical Physics in Trieste, Italy. He is the recipient of the Andrei Sakharov Prize.

Negussie Tebedge is Professor Emeritus of Civil Engineering at AAU. He was Winner of the Faculty Scientific Achievement Award of the Ethiopian Scientific Society Inc. (1994) and was awarded the AAU Golden Jubilee Medal (2000). He is member of: the Ethiopian Civil Engineers Association (Fellow); American Association of Civil Engineers, Tall Building Council, USA and the International Association of Bridge and Structural Engineers. He has produced extensive scientific publications and has prepared six volumes of the Ethiopian Building Code Standard.
Paul Mohr is Emeritus Professor at the Department of Geology at the National University of Ireland. He served as head of the Geology Department at the University College Galway - later the National University of Ireland and as acting-director of the Geophysical Observatory at Haile Selassie I University, now AAU. Alongside Dr. Miller at Cambridge University, he made the first radiometric dating of Ethiopian lavas and his work had established that there was a widening rate of 6 mm per year across the Ethiopian rift valley.

Redda Tekle Haimanot is Professor Emeritus at AAU. He is founder and CEO of Grarbet Tehadiso Mahber in Butajira which caters to people who live with physical disability and visual impairment. He is the recipient of the WHO Quenum Prize and the Senior Research Award of the Ethiopian Public Health Association. He has published on the neuroepidemiological aspects of epilepsy, neurolathyrism and contributed chapters for textbooks to mention a few.

Richard Pankhurst is pioneer in Ethiopian economic and social history. He is founding Director of the Institute of Ethiopian Studies; co-founder of the Society of Friends of the IES (SOFIES); and is Vice-Chair of Association for the Return of Magdala Ethiopian Treasures. He organized the Third International Conference of Ethiopian Studies held in Ethiopia for the first time in 1966 and the first International Conference of Ethiopian Art. He is the recipient of an honorary doctorate degree from AAU and the British OBE. He has published extensively.
Segenet Kelemu is Director General of the International Centre of Insect Physiology and Ecology. She served as Senior Scientist at the International Centre for Tropical Agriculture and as Director of the Biosciences Eastern and Central Africa. She is the recipient of the L’Oréal-UNESCO for Women in Science Award and a Friendship Award from the People’s Republic of China. She is Fellow of the African Academy of Sciences. She has published extensively.

Sebsebe Demissew is Professor of Plant Systematics at AAU; custodian of The National Herbarium at AAU; and Leader of the Ethiopian Flora Project. He is Winner of the Third World Academy of Sciences Prize for Young Scientists; Honorary Research Fellow of the Royal Botanic Gardens, Kew; and the recipient of an Honorary Degree from the University of Nottingham. He is member of the International Association of Plant Taxonomists and the Royal Danish Academic of Sciences and Letters. He has published extensively.

Seme Debela is a private consultant specializing in agricultural research and development. He served as Director General of the Institute of Agricultural Research of Ethiopia (currently EIAR). He has been awarded Certificate and Gold Medal for outstanding leadership in agricultural research institutions building and management. His work has been published in Crop Science Journal; in several progress and annual reports of the IAR; Proceedings of National Crop Improvement Conferences, and in national and international conferences.
Shibru Tedla is Professor Emeritus at AAU. He is the recipient of the Eastern African Environmental Network Environmental Leadership Award and the Ethiopian Science Society Award. He is a prime promoter for the ‘Rehabilitation of the Choke Mountain Range’-a major watershed of the Abay (Blue Nile). He has published extensively.

Shiferaw Bekele is Professor Emeritus of Ethiopian History at Addis Ababa University. He is also Fellow of the Ambrosiana Academy based in Milan (Italy). He has published many essays and articles in journals and books, and has edited and co-edited several books.

Shiferaw Berhanu is Professor of Mathematics at Temple University. He gave a crucial support to the PhD program in mathematic that was recently launched by AAU. Recently, in joint work with Ming Xiao (a student), they have resolved a 20 year-old conjecture of X. He supported many graduate students at an early stage of their career to benefit from interactions with world leaders in complex analysis and partial differential equations. He has published extensively.
Shifferaw Taye is Associate Professor of Engineering Mechanics and Structural Engineering at AAU. He served as Director of Engineering Mechanics and Structural Engineering at AAU. He served the Ministry of Works and Urban Development on the drafting of two Building Code Standards and as member of the Construction sub-Sector Committee of the Ethiopian Science & Technology Commission. He is one of the founders of an ISO 900:2008 certified Structural Engineering Consulting Firm.

Shitaye Alemu is Associate Professor of Internal Medicine at Gondar University. She is the recipient of the National Lottery UK Award for Chronic Illness Outreach; the Sasakawa Prize; the Federal Teachers’ Association of Ethiopia; has won recognition from People to People and from the Ethiopian Medical Association. She has published extensively on diabetes, epilepsy and HIV/AIDS in rural Ethiopia.

Sileshi Lulseged is Professor of Paediatrics and Child Health at Addis Ababa University and Senior Associate Research Scientist at Columbia University’s Mailman School of Public Health, New York, U.S.A. He is also Senior Advisor at ICAP Columbia University Program in Ethiopia. He has served as Head of the Department of Paediatrics and Child Health and Director of Clinical Epidemiology Service at AAU, Director of the WHO Regional INCI Training Center, Associate Director for HIV Treatment Program at U.S. CDC in Ethiopia, and Editor-in-Chief of the Ethiopian Medical Journal. He has published extensively. He is the recipient of the U.S. PEPFAR Lahya Shiimi Memorial Award; the Ethiopian Medical Association Medal Award, and Certificates of Merit from the Minister of Health of Ethiopia and U.S. Embassy, Addis Ababa.
Sileshi Nemomissa is Professor of Biosystematics at AAU. He serves as principal coordinator of multinational research projects. He has pioneered the establishment of DNA Bank at the National Herbarium of Ethiopia, AAU. Currently, this DNA bank houses over 25,000 DNA samples of wild plants collected from nine mountain ecosystems of Ethiopia, Kenya, Uganda, and Tanzania. He has published extensively.

Sileshi Semaw is Senior Scientist at the Centro Nacional de Investigación sobre la Evolución Humana in Burgos, Spain. He is Co-Director of the Gona Palaeoanthropological Research Project, in the Afar rift, Ethiopia. He served as research scientist at Center for Research into the Anthropological Foundation of Technology, and the Stone Age Institute in Bloomington, Indiana University.

Solomon Assefa is Director of Research Strategy and Growth Initiatives for IBM Research - Africa. He was honored by the World Economic Forum as a Young Global Leader; was named one of the World’s Top Young Innovators under 35 and received the world’s top 35 innovators under the age of 35 awarded by MIT’s Technology Review. He is also the recipient of the Technical Accomplishment Award, Corporate Recognition Award and several Invention Achievement Awards from IBM. He has published extensively and has filed over forty patents.
Solomon Bililign is Professor of Physics at the North Carolina Agricultural and Technical State University. He is the Director of the National Oceanic and Atmospheric Administration-Interdisciplinary Scientific Environmental Technology. He is the founder and the current president of the Ethiopian Physics Society in North America. He is the recipient of The Presidential Award for Excellence in Science, Mathematics and Engineering Mentoring and was named Outstanding Senior Researcher at NCA&T. He has published extensively.

Solomon Bekure is Team Leader of the Associates in Rural Development based in Burlington, Vermont. He served as Vice Minister and Head of the Extension and Project Implementation Department of the Ministry of Agriculture, Ethiopia; was consultant for the World Bank and Senior Scientist for the International Livestock Center for Africa. He has received Certificate of Recognition from the Ghana Ministry of Agriculture and the Ghana National Agricultural Research System. He has published extensively.

Solomon Hailemariam works as Resource Person for the Control of Livestock Diseases at the African Union. He served as the Director of The Ethiopian Veterinary Services and as Pan Africa Coordinator for the Eradication of Rinderpest. He is the recipient of gold medal from the Deputy Prime Minister of Ethiopia and the FAO Director General. He has published extensively.
Solomon Tadesse is Professor of Economic Geology at AAU. He served AAU as Chairman of the Department of Geology and Geophysics, as National Coordinator of the Ethio-French research project, and as Director of the Materials Science program. He also served as head of an exploration expedition for platinum deposit in the basement rocks of Yubdo, Wollega area and as Supervising Geologist of the Adola Mineral Exploration Project in southern Ethiopia. He has published extensively.

Tadelle Dessie is Group Leader and Research Officer for the Biotechnology Group based in ILRI-Ethiopia. He serves as President of the Ethiopian Society of Animal Production and as Vice-President of the All African Society for Animal Production as well. He has 20 years of research and development experience in various national and international research and development organizations. He has published extensively.

Taffa Tulu is Professor of Hydrology at AAU. He served as Vice President for Research and Postgraduate Studies at Adama University. He is the recipient of American Medal of Honor; and fellow of the Alexander von Humboldt Foundation. He is Associate Editor of the Ethiopian Journal of Natural Resources and of the East African Journal of Science. He has published extensively.
Taye Assefa is a literary scholar who has served as Director of Research and Publications at the Forum for Social Studies. He was also Head of the Communication and Services Department at the Association of African Universities and of the Publications and Documentation Officer at the Organization for Social Science Research in Eastern and Southern Africa (OSSREA). Before joining these organizations, Dr. Taye had been a regular academic staff of Addis Ababa University, where he is still teaching in the graduate program on a part-time basis. He has published extensively on Ethiopian literature and edited several research outputs.

Taye Bezuneh is Managing Director of the Associates of Sustainable Development Alternatives in Africa. He served as Director of OAU/Science and Technology Program; Director of Debre Zeit Agricultural Research Center; and has taught at the Alemaya College of Agriculture. He is the recipient of several honors, including Medal CHEVALIER de l’Ordre National Exceptional Title from the Government of Burkina Faso. He has published extensively.

Tefera Belachew is Professor of Human Nutrition and Dean of School of Graduate Studies at Jimma University. He served Jimma University as Medical Director of Jimma Teaching Health Center and as Head of the Population and Family Health Department. He is the recipient of Gold Medal and Certificate of Merit for Outstanding performance as a young researcher by the Ethiopian Public Health Association and the John River’s Prize for outstanding performance. He has published extensively.
Tegegne Gebre Egziabher is Professor of Regional and Urban Development and Planning at AAU. He is currently Director of the Institute of Development and Policy Research at AAU. He is the recipient of a Fulbright award for Ph.D study; research grant awards from OSSREA; Mazingira Institute; and ACFRN. He has published extensively.

Tekalign Mamo is Professor of Soil Science and currently Senior Director at the Ethiopian Agricultural Transformation Agency. He served as State Minister of Agriculture; Vice President of Haramaya University; and Senior Researcher and Director of Research. He is the founder and first Editor-in-Chief of the *Ethiopian Journal of Natural Resources*. He is the recipient of the 2014 African Green Revolution Laureate Award, 2015, International Global Ambassador for Soils Nomination, 2016 Norman Borlaug Laureate International Prize by International Fertilizer Industry Association (IFA), Certificate of Recognition and Gold Medal Award for Meritorious Achievements in Agricultural Research; Swiss Trans-disciplinarily Award; and Recognition by the International Potash Institute (IPI). He has published extensively.

Tekeste Negash is Associate Professor of History at Uppsala University. He served as Senior lecturer and was one of the founders of the Master’s Programme of African Studies at Dalarna University. His main research project focuses on Politics and History. He has been studying democracy in Africa; nation-building; European aid and the critical role of NGOs, and development studies. He has published extensively.
**Teketel Yohannes** is Professor of Physical Chemistry. He is currently Academic Vice President of the Addis Ababa Science and Technology University. In the past, he was Director of Research at AAU and has served as Associate Dean of Graduate Studies and as Director of Materials Science Program. He is member of Chemical Society of Ethiopia; the American Electrochemical Society; and European Physical Society. He has published extensively.

**Tenalem Ayenew** is Professor of Hydro-geology at AAU on a joint appointment basis at Beles Engineering PLC. He is member of the National Steering Committee for the water resources development projects of Ethiopia. He has served as General Secretary of the Ethiopian Hydrogeologists Association. He is member of the Ethiopian Geoscience and Mineral Engineering Association and the International Association of Hydrogeologists. He has published extensively.

**Tesfaye Tesemma** is a Consultant with a specialization in Plant Breeding/Crop Production. He served as Associate Professor at Haramya University. He is the recipient of Gold Medal Certificates from Ethiopian Agricultural Research Organization and Haramaya University; Distinguished International Alumni Award from Oklahoma State University; and an Outstanding Ethiopian Plant Scientist Designate by National Crop Improvement Committee of Ethiopia. He has published extensively.
Teshome Gberemichael is Professor of Medical Entomology at the Aklilu Lemma Institute of Pathobiology at AAU. He is one of the few African Medical Entomologists and is a renowned sandfly taxonomist in sub-Saharan Africa. He served as Director of Aklilu Lemma Institute of Pathobiology at AAU. As a senior Fulbright Scholar at Louisiana State University, he developed a GIS-based potential distribution map for the two principal vectors of VL in East Africa and a risk map for onchocerciasis in Ethiopia.

Tewolde Berhan Gebre Egziabher is Plant Ecologist who served as Director General of the Environmental Protection Authority. He was also Director of the Ethiopian Conservation Strategy Secretariat; President of Asmara University; Ethiopia’s Chief Negotiator in several environmental conventions. He is the recipient of Right Livelihood Award (Alternate Nobel Prize); Champion of the Earth Award, UNEP; and the National Green Award from the President of the Federal Democratic Republic of Ethiopia. He has published extensively.

Theodros Solomon is Professor of Chemistry at AAU, where he has worked since 1972. He has served as Dean of the School of Graduate Studies, Dean of Faculty of Science, and Chairman of the Department of Chemistry at AAU. He is the recipient of the 1995 Senior Fulbright Scholar Award, the 1995 Outstanding Faculty Scientific Achievement Award from the Ethiopian Scientific Society of North America; Certificate of Merit, Addis Ababa University (on the occasion of AAU’s 50th anniversary) in 2000, the AAU Award for Excellence in Academic administration, Research and Community Service in 2013.
Tim D. White is holder of the Distinguished Chair in Life and Physical Sciences at the University of California, Berkeley. He assisted Donald Johanson in analyzing the fossil skeleton known as “Lucy.” He is the founder of the Middle Awash Research Project, based in Berkeley and in Addis Ababa. He has been named TIME Magazine’s 100 Most Influential People; member of the American Academy of Arts and Sciences; member of the National Academy of Sciences; and the American Academy of Achievement, Golden Plate Award, Phi Beta Kappa Alumni Member.

Tsedeke Abate is Project Leader of the Drought Tolerant Maize for Africa project at CIMMYT Global. He is founder of Crop Protection Society of Ethiopia. He has served as Head of the Department of Crop Protection, Director General, and Senior Scientist (Entomologist) at the Ethiopian Institute of Agricultural Research. He also served as Chairman for the Ministry of Agriculture and the Ethiopian Institute of Agricultural Research Joint Committee on Technology Transfer. He has published extensively.

Tilahun Teshome is Professor of Law at AAU. He has served as Judge of the Special High Court; Judge and Presiding Judge of the Supreme Court of Ethiopia; and as Dean of the Faculty of Law AAU. He is the recipient of Certificate of Merit and Appreciation from Addis Ababa Chamber of Commerce; the Mayor of the City of Detroit; and the American Bar Association. He has been a research fellow at the Northwestern University in Chicago and the University of Bayreuth. He has published extensively.
Tsige Gebre-Mariam is Professor of Pharmaceutical Technology at AAU. He served AAU as Vice President for Graduate Studies and Research; Dean of School of Pharmacy; and as Head of the Department of Pharmaceutics. He is the recipient of Certificate of Merit for Outstanding Services and Contribution to Research from AAU; and Certificate of Recognition and Gold Medal from Ethiopian Pharmaceutical Association. He has published extensively.

Ulrich Braukämper is a Research Fellow at the Frobenius Institute in Frankfurt am Main, Germany. He was Professor at the Institute of Ethnology of the University of Göttingen. He served as expatriate expert for the reorganization of the Sudan National Museum of Ethnography in Khartoum and established a partnership between Göttingen Institute of Ethnology and the Institute of Social Anthropology of the University of Dar es Salaam. He has published extensively.

Wendimagegn Mammo is Professor of Organic Chemistry at AAU. He has served AAU as Chairman of the Department of Chemistry and as member of several committees. He received the Distinguished Research Award for excellence in research in 2014. In 2010, he was elected Fellow of The World Academy of Sciences (TWAS) and received the C.N.R. Rao Prize for scientific research in 2012. He is member of the Chemical Society of Ethiopia (CSE) and served as Editor and Editor-in-Chief of the Bulletin of the CSE.
Wolde-Ghiorgis Woldemariam is Emeritus Professor of Electrical and Computer Engineering at AAU. He has published on renewable energy sources and energy utilization patterns in Ethiopia and authored textbooks on Applied Electromagnetic Fields and Waves, and Principles of Electrical and Electronic Instrumentation. He was granted Associate Membership by ICTP at Trieste, Italy (1985-90), and Membership of the IEEE (1985-92). He has been actively engaged as a Principal Energy Researcher with AFREPREN - African Energy Policy Research Network (1999 – present).

Woldeamlak Bewket is Professor of Geography. He is presently the Dean of the College of Social Sciences of Addis Ababa University; he has also previously served as Head of the Department of Geography & Environmental Studies. During his tenure as Head, he successfully launched the Ph.D program of the Department. Prof. Woldeamlak is a widely published scholar for which he was recognized by an award ‘Distinguished Researcher – 2014’ by Addis Ababa University. He is founding member and associate editor-in-chief of the Ethiopian Journal of the Social Sciences and Humanities of the College of Social Sciences, Addis Ababa University.

Yalemtsehay Mekonnen is Professor of Cell and Human Physiology at the College of Natural Sciences at Addis Ababa University (AAU). She has initiated the first Ethiopian Society of Women in Science and Technology. She is the recipient of Gold Medal and Certificate of Recognition from AAU and the African Union Commission (AUC) Kwame Nkrumah Award for excellence in Science for women in 2015. She is the Ambassador Scientist for Alexander von Humboldt Foundation in Ethiopia and has published extensively.
Yalew Endawoke is Professor of Psychology at Bahir Dar University. He served as Academic and Research Vice President, Head of the University’s Research and Publication Office, Chairperson of the Department Graduate Committee, Testing Officer of the Distance Education Programme, and Managing Editor of the Research Bulletin at Bahir Dar University. He has served as consultant to the Amhara National Regional State Education Bureau, USAID/AED, and Forum for Social Studies. He is founding President of Woldia University since January 2011. He has published extensively.

Yayehyirad Kitaw served AAU as Head of the Department of Community Health and set up the rural assignment site in Zewai and the demographic and health surveillance site in Butajira. He served as Minister of Education and Commissioner of Higher Education. He is the recipient of the prestigious WHO Jacques Parisot Foundation Medal and the Ethiopian Public Health Association Certificate of Merit, Public Health Service Award in Ethiopia. He has published extensively.

Yemane Berhane is Professor of Epidemiology and Public Health and the Director of Addis Continental Institute of Public Health. He has dedicated his career to expand graduate-level public health training across the country. He has extensively collaborated in international research and has published widely in reputable journals.
Yimtubezinash Woldeamanuel is Associate Professor in Medical Microbiology at the School of Medicine, College of Health Sciences (CHS), AAU. She has done research in Medical Microbiology and infectious diseases and contributed in dissemination of findings through publications in reputable journals. She is also Chair of the Institutional Review Board (IRB), CHS and has contributed to the capacity building of research ethics review at the National level as well as other African countries. Her current research interest is in Health care associated with infections and AMR.

Yeweyenhareg Feleke is Professor of Medicine at the College of Health Sciences, Addis Ababa University. She is a Consultant Internist and Endocrinologist, and the First Female Professor in Health Sciences in Ethiopia. She has published extensively and has authored a book on diabetes mellitus. She is former President of the Ethiopian Medical Association for four years and she is one of the “Temesalet, Ethiopian Phenomenon Women.”

Yohannes Haile-Selassie is Curator and Head of the Physical Anthropology Department at the Cleveland Museum of Natural History and Adjunct Professor at the Departments of Anthropology, Anatomy, and Cognitive Sciences at Case Western Reserve University, USA. He established the Woranso-Mille paleontological project and is currently the principal investigator. His fossil discoveries from the Woranso-Mille study area showed 3.4 million years ago, there were at least 2 hominin species contemporaneously living in the Afar desert. He has published extensively.
Yonas Beyene is Director of the Konso Paleontological Research project. He discovered and published the world’s earliest Acheulean technology and its evolution between 1.75 and 0.8 million years before present. He served as Associate Professor at the Museum National d’Histoire Naturelle in Paris and as Academic Research Vice President of Wolqite University. He was member of UNESCO World Heritage Committee, representing Ethiopia. He has published extensively.

Zemede Asfaw is Professor of Ethnobotany at AAU. He is a pioneer ethnobotanist who introduced and made Ethnobotany an important component of the undergraduate and graduate curricula of AAU. He served as Registrar of AAU and as Dean and Assistant Dean of the Faculty of Science (now the College of Natural and Computational Sciences), AAU. He is winner of the high-level College of Research Associates of the United Nations University, Institute of Natural Resources for Africa (UNU/INRA) and the AAU award for distinguished service to the University. He is founding member of the Biological Society of Ethiopia and member of other professional societies. He has published extensively.

Zenebeworke Tadesse is a Sociologist by training and an international consultant to non-profit organizations, academic institutions and UN agencies in the fields of gender, social development and poverty. She has published widely and co-authored a book; two lengthy manuscripts; chapters in books; conference/workshop papers; and working documents. Her current professional affiliations include serving on two local and seven International Boards and on a number of International Editorial Advisory Boards.
Zeresenay Alemseged is Irvine Chair and Senior Curator of Anthropology at the California Academy of Sciences. He made an indelible mark in the field of anthropology when he reported finding the fossilized remains of a 3.3 million-year-old *Australopithecus afarensis*, child in Ethiopia, known as the world’s oldest child. He is leader of the Busidima-Dikika Paleoanthropological project. He was named Expert by the National Geographic Society. He is Fellow of the American Association for the Advancement of Science. He has published extensively.

Zerihun Woldu is Professor of Plant Ecology at the College of Natural Sciences at AAU. He is member of the International Association for Vegetation Science, the International Association for Landscape Ecology, and International Society of Ethnobiology. He has been awarded several research grants for undertaking ecological research. He has published extensively.

Zinabu Gebremariam is Professor of Freshwater Ecology at Hawassa University. He had served at various academic leadership positions for more than two decades, including Founding President of Hawassa University and Director General of the Ethiopian Higher Education Strategy Center. His honors and awards include the Ethiopian Science and Technology National Gold Medal Award for Distinguished Accomplishment in Higher Education Teaching and Research (2008); the University of Waterloo (UW - Canada) Faculty of Science Alumni of Honor Awards (2007).
